## CAUTIONARY NOTES REGARDING PROPOSED ACQUISITIONS

Certain disclosure in this document assumes that Harborside Inc., formerly Lineage Grow Company Ltd. ("Harborside", or the "Company") successfully completes the acquisition of Lucrum Enterprises Inc., d/b/a LUX Cannabis Dispensary ("Lux"), a California corporation (the "Lux Acquisition") pursuant to a binding letter of intent between the Company and Lux. There are significant risks relating to obtaining regulatory approval from the local authorities for the Lux Acquisition, risks on the current temporary state licence not being extended or the annual state licence not being granted, risk of not being able to enter into a definitive agreement; risks of consent and approval of a third party landlord under the leases; and risk of the Company's board deciding not to proceed with the Lux Acquisition. Due to these risks, there is no assurance that the Lux Acquisition will be completed as proposed or at all. Completion of the Lux Acquisition is subject to satisfactory completion of due diligence, execution of a definitive agreement, and receiving all required approvals and consents.

## FORWARD LOOKING STATEMENTS

This business overview does not contain, nor does it purport to contain, a summary of all the material information concerning the Company or the terms and conditions of any potential investment in the Company. If and when you determine to proceed with discussions and investigations regarding a possible investment in the Company, prospective investors are urged to carry out independent investigations in order to determine their interest in investing in the Company.

This business overview contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended. These statements can be identified by the fact that they do not relate strictly to historical or current facts. Forward-looking statements often include words such as "anticipates," "estimates," "expects," "projects," "intends," "plans," "believes" and words and terms of similar substance in connection with discussions of future operating or financial performance, including the assumption used in creating projected financial information. Forward-looking statements relate to future events and future performance. Forward looking statements in this business overview include: (i) successful and timely expansion and retrofit of cultivation facilities; and (ii) incremental improvements to cultivation yields and cost structure as a result of said expansion; and the Lux Acquisition. Forward-looking statements are based on the opinions and assumptions of management as of the date made, and are subject to a variety of risks and other factors that could cause actual events/results to differ materially from these forward looking statements.

The Company's forward-looking statements are based on management's current expectations and assumptions regarding the Company's business and performance, the economy and other future conditions and forecasts of future events, circumstances and results. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty, changes in circumstances, and the business and legal risks associated with the Company and its customers, vendors, and affiliates. The Company's actual results may vary materially from those expressed or implied and may differ materially as a result of government regulation, economic, strategic, political and social conditions including but not limited to the risk factors disclosed.

More particularly, financial projections are based upon a great number of variables, estimates, and judgments on matters, including those over which the Company will have no control including, without limitation, the market for the Company's proposed services, economic conditions generally, the state of the industry, the effects of competition, and the legal and regulatory environment. The projections are principally intended for use as objectives and are not intended, and should not be taken, as assurances that the projected results will be obtained by the Company. The Company will not be undertaking to update those projections or otherwise revise the projections or the assumptions upon which they are based on an ongoing basis.

## RISKS & DISCLOSURES

There are a number of risk factors that could cause future results to differ materially from those described herein. A discussion of the principal risk factors relating to the Company's operations and business, appear in the listing statement of the Company dated May 30, 2019 and the Company's Management's Discussion and Analysis of Financial Condition and Operating Performance for the three and six months ended June 30, 2019 (the "Q2 MD&A") which are publicly available on the Company's profile on [www.sedar.com](http://www.sedar.com). Additional risks and uncertainties, including those that the Company does not know about now or that it currently deems immaterial, may also adversely affect the Company's business or any investment therein.

## NON-IFRS MEASURES, RECONCILIATION AND DISCUSSION

This business overview contains references to "Adjusted EBITDA", which is a non-IFRS financial measure. Adjusted EBITDA is a measure of the Company's overall financial performance and is used as an alternative to earnings or net income in some circumstances. Adjusted EBITDA is essentially net income (loss) with interest, taxes, depreciation and amortization, non-cash adjustments and other unusual items added back. This measure can be used to analyze and compare profitability among companies and industries, as it eliminates the effects of financing and capital expenditures. It is often used in valuation ratios and can be compared to enterprise value and revenue. This measure does not have any standardized meaning according to International Financial Reporting Standards ("IFRS") and therefore may not be comparable to similar measures presented by other companies.

There are no comparable IFRS financial measures presented in Harborside's unaudited condensed interim consolidated financial statements. Reconciliations of the supplemental non-IFRS financial measures are presented in the Company's Q2 MD&A. The Company believes that the measures provide information useful to shareholders and investors in understanding our performance and may assist in the evaluation of the Company's business relative to that of its peers. For more information, please see "Non-IFRS Measures" in the Company's Q2 MD&A available on [www.sedar.com](http://www.sedar.com).
